Our Story

Inspired by the age old traditional handcrafted metal works of India, promoters decided to bring these objects of art to the Americas. Mystical Indian artisans hand craft every piece from cold metals in to unique attractive works of beautiful art. Our designers direct the artisans to create and put soulful life in the handicrafts, bringing extraordinary elegant forms to entertain your friends and family.

Consumers want the perfect table setting while entertaining in the dining room, sitting at the kitchen island or relaxing on the patio. Mix and match is gaining popularity for casual and formal table settings. Table top trends are following fashion, mixing casual and formal and the overall look reflects the host's personalities. Trend is towards elegance, colors and fun. Our designers have designed the product lines, keeping in mind the current trends and consumer preferences. Majestic Art Elements products are suitable for indoor as well as outdoor, for casual and formal table settings.
